Chapter 1

"Something is wrong," says my brother with a sigh. "Something is wrong indeed." my brother sigh again. The siren spins and spins with even larger noise than the ambulances. I can hear the worry muffling from the other houses, moms calling kids to come home. I peered outside of the wooden shutter and see the dark blue sky with white flashes. "They are here again." I murmured. We grasp our weapons with our gloved hands and so did the others. We stand in the path of the entrance that lead into the small village. We stand there, quietly and silently and cautiously. Trying to listen for their foot steps. The ground is shaking harder than ever. Suddenly, a white flash shoot towards us from the fog and one man went down. We move back a bit and fall in silence again looking at the man lying on the ground, tears dripping from our vicious eyes. We stare into the fog with anger and in front of us, we can see a group of armored soldiers drawing closer and closer. "Charge!" yelled my brother with anger, the demon army from under world have already taken down our troops near us leading by lord Alof. I rushed with my friends to take down the army but to my surprise, they have nuclear weapons. I suddenly fell into dizziness, I see the weapon reloading slowly and slowly but at last a flash shot

opened beside me. It's the demon soldiers. They are all armed in metal and they looked very strong like they just drank the potions of strength. They round around me, then I pulled out a knife that was in my pocket and waving it at them. They stepped back a bit and the leader sneered saying: "you think that can scare us?" They took out a laser gun and shoot me in the right arm, I fell into darkness again.

Three hours later...

I woke up again but this time, I am locked to a stone wall in a small vacant room. "what is this, a jail?" I asked myself. I struggled a bit with my wrist but to my surprise, I broke the lock only with my arms. I looked at myself, feeling happy and afraid. "How am I suppose to control this?" I started to banging the stone wall but it still won't break. The metal door opened beside and I can see, it's Alof. "We designed that power for you if you would want to work for us." He said coldly. "Why would I want to work for you?" I demanded. "If you work for us, we would think about a plan." "Then what is it?" I challenged him. "We might stop attacking your tribe and family." He said. There was an awkward silence between us. Then, I agreed.

I walked hand-cuffed with them into a vacant looking room. The guards pushed me into a chair and I stared at everyone in darkness... red eyes shining everywhere. There's about 10 Demon's officer in this room. Everyone of them nodded to each other and one of them threw a red suit at me. "Suit up," one of the officer said. I stared down at the suit and without argument, I wore it.
